ASTRID GENERAL INFORMATION

NATURAL FIBERS: Irregularities in hue and texture are integral to the character of textiles utilizing natural fibers; as such, color matches cannot always be guaranteed. If an exact color match is required, a cutting for approval must be requested when an order is placed.

Natural fiber fabrics often stretch, primarily due to their weight but also due to humidity. How much depends upon the length of the fabric as well as the fabric's weight. The fabric may also contract depending dryness and temperature.

Many of Astrid's fabrics are washed to give them a unique look, which includes folds and natural markings. Linen threads also naturally vary in thickness, creating unique effects.

Astrid's fabrics that are most handcrafted are also those most prone to wrinkling at the edges. This means that in the case of curtains they are most suitable to be used with the fabric's width also used as the width of the curtain.

Exposure to sunlight may bleach fabrics over time. Lining is recommended for fabrics that will be subjected to direct sunlight.

MINIMUM: Astrid minimum order is 1 yard with .5 increments thereafter.

FABRIC STOCK: Fabrics are stocked in Europe. Lead time will depend on quantity.

CLAIMS: In the event of a complaint, please send photos to info@taktistudio.com for evaluation. Complaints will only be approved for reclamation when the product is used under normal conditions, has been correctly maintained and has been used for the intended purpose. Natural fibers may vary in color and texture and will not be considered defective. Compensation in the form of replacement fabric or refunds will only be made after approval of the complaint. No refund will be made for indirect costs.
